Project Description:

The project that ProjectSasquatch will be working on is a fitness app/ webapp that will allow the users, students in the Strength Fitness courses, to learn about specific workouts from video and written description. The user will also be able to monitor his or her workout based on a five categories workout within Drew's Strength Fitness courses; Warmup, Push, Pull, Legs, and Core. Our clients name is Drew Peterson his email is ajp3@humboldt.edu.
